

Minor in Geology

Environmental Science addresses urbanization and the depletion of natural resources connected to an ever-increasing global population.

Environmental Scientists are constantly identifying and looking for solutions to environmental problems that directly affect our quality of life.

Today's environmental problems call for scientists who are educated in more than one discipline, highly trained in technical skills, and aware of the political and social dimensions of environmental problems and how to make decisions with regard to these situations.

Code	Title	Semester Hours
Requirements for minor:		
ES 1300	General Geology	3
ES 1100	General Geology Laboratory	1
ES 2325	Energy Resources and the Environment	3
ES 2350	Environmental Geology	3
ES 2150	Environmental Geology Lab	1
ES 3330	Introduction to Geographic Information System	3
Select from the following		6
ES 1303	Geology of Earth Resources	
ES 1305	Physical Geography	
ES 3325	Geophysics	
ES 3340	Physical Hydrogeology	
ES 3400	Environmental Geochemistry (with lab)	
Total Semester Hours		20
