

Minor in Mathematics

Mathematics – from actuarial science to financial math – is about more than the theory of numbers. It discovers tools from which a quantitative understanding of our world is made possible.

Moreover, the language of mathematics is truly a universal language, transcending ethnic, societal, and national boundaries.

Finally, mathematics also is a critical filter, opening doors to exciting and high-paying careers in business, government, teaching and research.

| Code | Title | Semester Hours |
|--------------------------------|--------------------------------|----------------|
| Requirements for minor: | | |
| MT 2412 | Calculus I | 4 |
| MT 2413 | Calculus II | 4 |
| MT 2414 | Calculus III | 4 |
| MT 2323 | Discrete Math Structures | 3 |
| Select two from the following: | | 6 |
| MT 3321 | Introduction to Modern Algebra | |
| MT 3324 | Linear Algebra | |
| MT 3392 | Elementary Math Analysis | |
| MT 4311 | Complex Variables | |
| MT 4331 | Probability Theory | |
| MT 4342 | Topics in Advanced Mathematics | |
| Total Semester Hours | | 21 |
